

Wireless LAN / CNE Tool Training Course and Evaluation

December 15-16, 2010

and

Classification

The overall classification of this presentation is
TOP SECRET//COMINT//NOFORN

The majority of the materiel in this presentation is
UNCLASSIFIED

Some information though is classified. That
information will be marked in the slide title.
Consider any nontitle classified slide, unclassified

Example

This is unclassified

(TS//SI//NF) Classified Example

This slide would be classified

Primary Course Objective

- To familiarize, educate, and certify students in the operational usage of WLAN / IEEE 802.11 CNE tools and techniques to include:
 - BLINDDATE
 - NIGHTSTAND
 - BADDECISION

Secondary Course Objectives

- Understand the fundamentals of the WLAN / IEEE 802.11 protocol.
- Learn the end-to-end CNE process for close proximity WLAN operations.
- Gain familiarization in WLAN network protocol analysis.

Course Elements

- Lectures
- Demos / Labs
- Evaluations

Agenda

- Review of Fundamentals
- Introduction to WLAN / 802.11
- BLINDDATE
- WLAN CNE Operations
- NIGHTSTAND
- BADDECISION
